

A night sky with a bright star and mountains. The background is a dark blue night sky filled with numerous small stars. A single, very bright star is positioned near the top center, creating a prominent four-pointed starburst effect. Below the sky, the dark silhouette of a mountain range is visible against the lighter blue of the twilight sky.

*„Legyünk mi magunk is másoknak  
csillag, amely bevilágít  
éjszakájukba.”*
